

Dear Friends & Colleagues

Warm Greetings!

Recent Publication

Recently Rohana Gunawardena, Director - SAP Practice, had an article published in the leading SAP publication, SAP Supply Chain Expert, published by WIS.

How to Fix MM/FI Field Status Errors

Examine why field status errors occur for Materials Management (MM) transactions. Understand the relationship between MM and Financial Accounting field status. Discover the steps required to correct field status group errors and the special considerations for configuring field status groups

As our valued customer, we would like to share with you this article. You can download this article using the link to our web-page.

We have published many white [papers and presentations](#), which cover many of the business challenges you wrestle with everyday. If you want to discuss business cases involving these presentations or white papers or specific to your industry, please contact us.

New Initiatives

- QS&S now offers '**More for Less**' programs to **Reduce Costs Not Quality**

Especially in these trying times, every customer is looking for opportunities to reduce costs. However, simply cutting all the IT budgets by 20% across-the-board is not going to solve the problems – in fact, it will create more problems, if the projects are strategic and mission-critical.

One of the IT Directors of a world-class company told me that he is looking to his partners to provide “more value for the same dollar”. With that simple but very clear message from our customers, we now offer '**More for Less**' program, which [provide more value to our customers for less costs](#) - reducing IT Costs without affecting the Quality. We achieve extraordinary results by deploying various operating models and utilizing an array of tools and techniques:

- Lowest Cost Structure in the Industry – Savings passed on to customers
- Pre-built Solutions & Process Designs
- Single Point-of-Contact Program & Portfolio Management
- Fixed-Price ERP Upgrade
- Group Currency Conversion Toolkit
- User-Exits Cockpit
- New G/L Testing – Strategies, Build & Execution

Please refer to http://www.QSandS.com/More_for_Less.html for more information.

- QS&S now offers [New G/L Implementation & Migration](#) consulting services

Specifically, if you are planning to migrate from Classic G/L to the New G/L, we work along with SAP Americas for the SAP General Ledger Migration services. This is a mandatory service from SAP that ensures that all relevant data is transferred quickly and safely while you implement the New G/L.

- QS&S now offers [Group Currency Conversion](#) services

With the planned transition to New G/L, many customers have found that Group Currency was not activated at initial SAP go-live and is now causing issues for New G/L implementation. Our team can provide the required consulting expertise and QS&S proprietary tools for Group Currency Conversion. QS&S provides a highly competitive solution when compared to the cost of SAP SLO services.

- QS&S [Consulting Team](#) - Senior Leadership with extensive expertise

Just recently, we have successfully completed few projects and our senior lead consultants are available to take up the new challenges. Please refer to <http://www.QSandS.com/Available.html> for more information.

Upcoming Events

- **Managing SAP Projects - 2008 Conference** www.SAPProjects2008.com
